REMARKS

50X1-HUM

1. The former 7th VP Bereitschaft in Kuehlhausen received basic infantry training from October 1949 to May 1950. Artillery training was started in May 1950, when the VP Bereitschaft was issued two 75-mm AT guns, four model 18 light field howitzers, five model 18 heavy field howitzers and four or five heavy 150-mm infantry guns. In the fall of 1950, the unit received eight to ten Soviet 105-mm SP guns and four Soviet AT guns of about 80 mm caliber. In early December 1950, the 7th VP Bereitschaft was deactivated and merged with the former 8th VP Bereitschaft to become VP Dienststelle (VPD) 12/39, Kuehlhausen. The artillery pieces of the former 7th VP Bereitschaft had not been reassigned.

\* ☐ Comment.

☐ If SP guns were actually issued they probably were SU-76 models.
